Orders & Shipping Rates

We ship a minimum of 6 bottles and use either Australia Post or Fastway Couriers.

To keep your costs down, because shipping costs suck, we cover the majority out of your generous purchase (fair enough right!).

Orders can be placed for mixed 6 or 12 packs in your chosen combination and any discounts still apply.

Deliveries within Victoria and to other major cities is down to \$10 per case. Everywhere else is costed at \$15 per case. A 'case' shipping is the same if you buy 6 or 12 bottles.

EG: Coober Pedy for 18 bottles would be \$30. 24 bottles would be the same cost. 6 or 12 bottles would be \$15. "Bloody shipping!" you mumble, don't sweat it, I buy online and live in one of those pesky 'other' areas so I try and dodge shipping too. Good news – we get all lovey-dovey/ drink too much and offer free shipping from time to time. So if you are obsessed with dodging shipping like me, make sure you are on our **Mailing List** (that and you automatically get an extra 5% off on top of whatever special we offer via the list #winnerwinnerchickendinner). Simply apply the discount and we will confirm or add you to our list. Alternatively, you can sign up at www.farmerandthescientist.com

Delivery Instructions

Please include all relevant information needed to deliver your wine to you. Choose the shipping rate that applies to your location. We don't ship to P.O Boxes. In your best interests, we require a daytime phone number in the event a courier contacts you regarding your delivery. We won't use this number for any other purpose than your single delivery.

Accepting Your Delivery

-You must be 18 years or older to place an order and receive a delivery.

-A person 18 years or older must be available to sign on delivery and may be required to produce identification.

-Understand that if this is not possible at delivery that the courier may leave a calling card for you to arrange pick-up from a depot or redelivery.

-Alternatively if you think you may not be home you can note on this form **PERMISSION TO LEAVE**. This will render you liable if someone pinches your wine off the doorstep though.

Damaged Goods

Someone will reimburse you for broken bottles in line with our carrier's policy - <http://www.fastway.com.au> - and if they don't look after you we will tickle them till they agree to or we will fix it up ourselves and never speak to them again.

To help us out with this laborious, crappy process - In the event you receive a product that appears to have been damaged in transit you should:

1. Refuse to accept delivery of the product.
2. Direct the delivery agency to Return Goods to Sender.
3. Notify us a.s.a.p. Contact Jess 0400141985

If you have already accepted delivery, then notice the product appears to be damaged during transit you should leave the parcel as is (we may ask that you take photos for our transport claim) so we can process the return as "Damaged in Transit".

Estimated Transit Times

For estimated transit times go to fastway.com.au and select the 'Quote' tab. Enter in your town and postcode as the 'sending to' location and Bendigo as the 'sending from' location. Parcel weight will be 8kg/per 6 bottles. Add one day for transit between Farmer & The Scientist and Bendigo. Then add a further 2-5 days for processing and shipping your order. This will be your parcel ETA.

We aim to process your order and hand it over to our carriers within 1-3 days regardless of weekends etc. No pesky business hours around here! This being said, I am human, have chickens, children, grapes to look after so would prefer if you allow 2-5 days in your calculation so you don't despise me if something crops up. We hate, hate, hate letting anyone down and want you to be happy and enjoy our wine, so know that your order means a lot to us and we will always do our best to get it to you asap!
